

# JEEP® eBIKE

1000 / 750W • 9-SPEED • 70 LBS\*

The all-new Jeep® eBike was developed in partnership with the most iconic off-road brand on the planet. Built on a 26"x4.8" Fat-Tire platform, the Jeep® eBike is designed to be the most capable eBike in existence. Conquer any technical off-road terrain including soft sand and snow, as well as hardpack trails and rock.

\* Range is calculated at 2 miles per amp-hour unassisted, 4 miles per amp-hour assisted.

\* Bike weight is calculated without battery.
